

GET ON THE FLOOR NOW!

The newly consolidated Salem Elementary School Fitness / Science Trail was approved by the Harrison County Board of Education as the first ever county wide "Partners-in-Education" project to be sponsored by the Chamber's Education Committee. The project consists of a ¼ mile fitness trail, ¾ mile science/nature trail, educational wetlands area and an outdoor classroom for hands on activities. **To provide a way for everyone to participate in this project the architect has designed the outdoor classroom to include engraved brick pavers for the floor. This is an awesome opportunity for you to leave a memory for generations to come while supporting educational activities in Harrison County.**
